Attabox New National Sales Manager

November 11, 2009

Effective November 1st, Jeff Jannsen joined the Atta-team as the National Sales Manager. He will be assisting Mike Meinscher and Bill Evatt in their efforts to take Attabox national. Jeff has 20+ years of experience in the non-metallic electrical products industry. He is excited to be joining the Attabox team and looks forward to improving product awareness in the marketplace.

Attabox Inventory Stocked for Sale

Attabox continues to process and ship customer orders within 24 hours of purchase order. While the competition likes to provide 3-4 week lead times, Attabox manufactures and stocks the enclosures in advance to meet customer needs. Attabox is able to achieve this by having fewer part numbers for a particular size. For example a AH1084, comes with latches, screws for cover, locking hasp, mounting feet, and the hinge. This one part number could be as many 6-8 SKU's with our competitors.

DIN Rail Mounting System

The Attabox DIN rail mounting system provides an internal set of threaded aluminum channel nuts with a DIN rail cut to length.

BENEFIT—End users are able to mount internal equipment without penetrating the side wall of the enclosures.

ISA EXPO 2009 – Success for Attabox

Attabox is proud to report that the ISA EXPO 2009 was successful. Attabox left the show with interest from 100's of new customers. There were times during the show when Attabox was discussing features and benefits with 3 different companies simultaneously with a line of interested attendees patiently waiting to their turn to learn more about our products.

Attabox was represented at the show by Bill Evatt, Mike Meinscher and Kevin Kinzie. They begin the difficult task of following up with all the interested companies.

Please do not wait for us to call—if you want to learn more or continue discussions— CALL US—800-686-0986.

Bill Evatt—281-883-8221 or bill@atabox.com

Mike Meinscher—210-725-8788 or mike@atabox.com

Kevin Kinzie—281-210-7420 or kevin@bradywaters.com
