

December Update

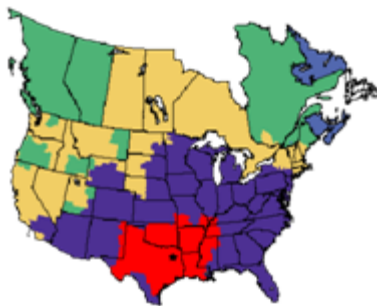

P.O. Box 2087
Belton, TX 76513

Merry Christmas & Happy New Year

Many thanks and blessings. 2009 has been a good year for Attabox. Our business improved significantly compared to 2008. We greatly appreciate all our customers and our rep agencies for working with us. In 2010, we will continue to work hard to service your needs and exceed your expectations.

Attabox will not be shipping products between December 23, 2009 and January 4, 2010. Our admin and sales offices will be available for orders, quotes or questions.

Available Freight Transit Times from Attabox

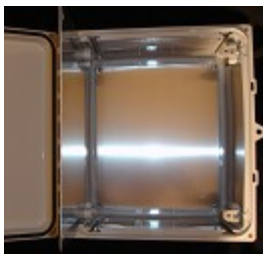

Service Standards

- - Next day
- - 2nd day
- - 3rd day
- - 4th day
- - 5th day and beyond

Attabox has service agreements with many freight carriers to achieve the best rates available. For pallet shipments, Attabox can ship affordably to most locations within 5 days.

Swing Panel System

The Attabox swing panel system provides for a variable height, multi-directional, swinging or dead-front panel. Panels are available in aluminum, ABS, or polycarbonate

BENEFIT—End users are have flexibility to design and package internal equipment to meet many specifications.

Message from Jeff — National Sales Manager

With my second month coming to a close, I want to thank you for your business. We are working hard to improve our product awareness and brand knowledge. From moist to dusty, cold to hot, or windy to abrasive, the Heartland Series enclosures will perform to your specifications. If you have a new application and want to learn more about our solutions, please call me: 800-686-0986

— Jeff

ABS Enclosures Available

In an effort to meet all the new customer needs and achieve a low cost PC alternative, we are now quoting enclosure business made with black ABS. Minimum release quantities are 500 units.
